## Summary

Results-driven **MERN Stack Developer** with 1+ year of real-world experience delivering production-grade business applications including CRM systems, finance tracking modules, billing automation, and admin dashboards. Skilled in building scalable REST APIs, secure authentication flows, and cloud-deployed solutions on AWS. Focused on performance, usability, and measurable business impact.

## Technical Skills

- **Languages:** JavaScript, TypeScript, Python, C
- **Frontend:** React.js, Next.js, Redux Toolkit, HTML5, CSS3, Tailwind CSS, Material UI
- **Backend:** Node.js, Express.js, REST APIs, JWT Auth, Socket.IO
- **Databases:** MongoDB, SQL, Firebase
- **Cloud/DevOps:** AWS EC2, S3, Route53, Nginx, VPS Deployment
- **Core Concepts:** MVC, RBAC, API Security, DSA, Git, Postman

## Professional Experience

### MERN Developer

Dec 2024 – Dec 2025

*JK Studio — Interior Design Company*

- Built and deployed a **full internal management platform** used to manage **clients, projects, billing, and financial tracking** in a real business environment.
- Developed a **custom CRM system** improving project tracking and reducing manual coordination effort by an estimated **40%**.
- Implemented **invoice, quotation, and expense automation** enabling faster financial reporting and monthly/yearly summaries.
- Designed **admin dashboards** to visualize revenue, balances, and project performance for decision-making.
- Engineered **secure REST APIs with JWT authentication and RBAC**, ensuring controlled access to sensitive financial data.
- Successfully **deployed production system on AWS VPS with Nginx**, handling build, server setup, and live maintenance.

### MERN Stack Developer (Training)

Oct 2023 – Nov 2024

*Brototype*

- Completed intensive industry-focused training by building multiple **production-ready full-stack applications**.
- Practiced scalable architecture, clean code structure, and real-world deployment workflows.

## Key Projects

### Barbezz — Salon Booking Platform

- Developed full-stack booking system with authentication, real-time notifications, and slot management.
- Implemented scalable backend APIs and responsive React UI for smooth booking experience.

### Ceraa — E-Commerce Platform

- Built complete e-commerce workflow including product management, payments, and automated billing.
- Designed secure order handling and database structure for reliable transactions.

## **Freelance Work**

---

### **Business Web Applications & Websites**

2024 – Present

- Delivered multiple live client projects including CRM-enabled platforms and secure admin dashboards.
- [QuitEasy](#)   [Fade Elegance \(UAE\)](#)   [Al Nsral Dahabi Tyres](#)   [Golden Extreme](#)

## **Education**

---

### **MBA – Technology Management**

2021 – 2023

Garden City University

## **Certifications**

---

AWS Cloud Practitioner (In Progress)   MongoDB DBA Associate   JavaScript Algorithms – freeCodeCamp
